Exhibitors, Sponsors and Volunteers needed!!

Calling all environmentally minded businesses, civic organizations, municipal committees, school groups, scout troops and residents! You are invited to volunteer and/or set up educational displays on environmentally-related topics at Montgomery's Earth Day Fair. The theme this year is **Earth Day, Every Day**: how we can incorporate green practices into our life.

There are many ways you can become involved in the Fair: set up an exhibit, donate give-a-ways or food, make a donation of funds to offset cost of the Fair, or provide music or other entertainment! Volunteers are also needed to help plan or work at the fair.

This year we are adding speakers and workshops that will provide information for indoor and outdoor green practices. Examples are: how to build a butterfly garden, a live demonstration for creating a Rain Garden, and how to make your home more energy efficient (and save money). We are looking for individuals who are interested in speaking for about 20 minutes or in conducting a demonstration on a specific topic.

We are also excited to offer a 'Freecycle' opportunity where residents can drop off items they no longer need, and take home 'new' treasures – all for free!

Are you planning or do you know someone planning an environmentally related event close to Earth Day? We will help publicize it by including it in our Earth Day Fair promotions! Please send an email to earthdayfair@gmail.com with your information.

Online registration.
